Independent Auditor's Report

To the Board of Trustees
Independence Light and Power, Telecommunications
Independence, Iowa 50644

We have audited the accompanying financial statements of the business type activities, each major fund and the aggregate remaining fund information of Independence Light and Power, Telecommunications (a municipal utility), a component unit of the City of Independence, Iowa, as of and for the years ended December 31, 2007 and 2006. These financial statements are the responsibility of the management of Independence Light and Power, Telecommunications. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards and provisions require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audits provide a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business type activities, each major fund and the aggregate remaining fund information of the Independence Light and Power, Telecommunications as of December 31, 2007 and 2006, and the respective changes in financial position and cash flows, where applicable, for the years then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated March 14, 2008 on our consideration of the Independence Light and Power, Telecommunications' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audits.

Management's Discussion and Analysis and budgetary comparison information on pages 6 through 16 and 32 through 34 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Independence Light and Power, Telecommunications' basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the year ended December 31, 2005 (which is not presented herein) and expressed an unqualified opinion on those financial statements. Other supplementary information included in Schedules 1 and 2 is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Independence Light and Power, Telecommunications (the Utility) provides this Management's Discussion and Analysis of its annual financial statements. This narrative overview and analysis of the financial activities is for the year ended December 31, 2007. The Independence Light and Power, Telecommunications provides electrical, cable, internet, and telephone services to the citizens of the City of Independence (the City) and is a component unit of the City. We encourage readers to consider this information in conjunction with the Utility's financial statements, which follow.

2007 FINANCIAL HIGHLIGHTS

- Revenues of the Utility for 2006 were \$9,006,286. This is an increase of approximately 25% from 2006.
- Disbursements for 2007 totaled \$8,768,859. This is an increase of approximately 15% from 2006.
- During 2007, the Utility increased electric rates, and saw heavily increased demand for telephone services which were introduced late in 2006.
- The Utility has committed \$400,000 as an investment in future transmission.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information as follows:

- Management's Discussion and Analysis – This introduces the basic financial statements and provides an analytical overview of the Utility's financial activities.
- The Basic Financial Statements – These consist of the Statement of Net Assets, Statement of Revenues and Expenses and Changes in Net Assets, Statement of Cash Flows, and Notes to the Financial Statements. The previous mentioned financial statements provide information about the activities of the Utility as a whole and present an overall view of the Utility's finances. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.
- Supplemental Information – This provides additional information about the Utility's financial activities in addition to the basic financial statements.

BASIS OF ACCOUNTING

The Utility maintains its financial records on the accrual basis of accounting which is in conformity with U.S. generally accepted accounting principals. The accounting records are maintained in accordance with the uniform system of accounts prescribed by the Federal Energy Regulatory Commission (FERC).

FINANCIAL ANALYSIS OF THE UTILITY

Net Assets may serve over time as a useful indicator of financial position. The Utility's Net Assets increased by \$174,202 from 2006 to 2007.

BUDGETARY HIGHLIGHTS

The Utility prepared and adopted the annual budget on December 6, 2007, which designated the amounts necessary for the improvement and maintenance of the Utility. The Utility did not exceed its budgeted expenditures for the year ended December 31, 2007.

DEBT ADMINISTRATION

At December 31, 2006, the Utility had long-term debt in the amount of \$5,464,284. During 2007, the Utility repaid \$374,347 of long-term debt.

BACKGROUND OF INDEPENDENCE LIGHT AND POWER, TELECOMMUNICATIONS

In 1893, the citizens of Independence voted by a 572 majority to build a municipal light plant. This building was located where Veterans Park is today. The flood of 1947 caused damage to the plant so they decided to move to a better location. In 1948, construction began on a new building at the present site. At that time the Mayor and City Council governed the Light Plant. In 1961 the City voted to have the Light Plant governed by a board of trustees.

During the construction of this building, two new Superior 1000kw generators were installed. These generators are still in use today. After these generators became operational they moved two Worthington generators from the old plant. These units have since been removed to make room for new Caterpillar generators.

As the City grew the demand for electricity also grew, so additional generation had to be added. In 1957, a twenty-foot addition was added to the west side of the building to make room for the installation of a 2500kw Worthington generator. In 1964, another addition was added to the west allowing space for two additional generators. At this time a 3200kw Worthington generator was installed. In 1973, a 6250kw Worthington generator was installed and a new Control Room was added to the south side of the building.

In 1975, the interconnection with Interstate Power Company was installed. This meant that the plant went to a standby status and power was purchased from Interstate Power Company. Power was generated during times of high usage and during emergencies. Presently we are still in a standby status and from May 1996 until May 2006, we have been purchasing power from Dairyland Power Company. On April 20, 2006 a contract was signed with Wisconsin Public Power Inc. (WPPI) to purchase power beginning May 1, 2006 for a period of 32 years.

In October of 1979 the Line Shop moved to their present location. In 1987, we began to upgrade the electrical distribution system from 2400 volts to 12,470 volts. This upgrade was completed in January of 2002. In order to better serve our customers, a drive-thru pay window was installed in 1992 and the billing functions were moved from City Hall to the plant.

In 1995, two 1860kw Caterpillar generators were installed in place of the 1935 generators. In March of 1999, the 1939 generator was also removed to make room for additional Caterpillar generators. In May of 2000 three 1860kw Caterpillar generators came on line. In 2007 one of the Superior generators was retired and currently the total generating capacity of the plant is 22,250kw.

In November of 1997 by a majority vote, the citizens of Independence approved the formation of a telecommunications company. A new administration building was built across the street from the plant and in May of 2000 the office and management personnel moved in. The vacated office area at the plant was remodeled for the new telecommunications equipment. Cable TV became operational in December of 2000 and internet on May of 2001. In 2006, digital telephone service, was added as an additional service.

In June of 2003 work began on the site of the west substation. This substation was installed to handle the continued growth west of the river. It will also be used to serve the entire town when east substation needs to be taken out of service. We are continuing to stay abreast with our customers' needs and keeping a watchful eye to the future. Our goal is the same as our founders, to deliver low cost dependable power to all citizens well into the future.

CONTACTING THE UTILITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our customers and creditors with a general overview of the Utility's finances and to show the Utility's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Darrel Wenzel, General Manager, P.O. Box 754, Independence, IA 50644.

Independence Light and Power, Telecommunications

Notes to Financial Statements

December 31, 2007 and 2006

(1) Summary of Significant Accounting Policies

The Independence Light and Power, Telecommunications is a subdivision of the City of Independence, which is a political subdivision of the State of Iowa. It is considered a Component unit of the City under Governmental Accounting Standards Board Statement Number Fourteen. The City operates under the Mayor-Council form of government with the Mayor and Council Members elected on a non-partisan basis and the Utility is governed by a separate Board of Trustees. Independence Light and Power, Telecommunications is a public utility providing electrical, cable, internet, and telephone services to the citizens of the City of Independence, Iowa.

The Utility's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity:

For reporting purposes, Independence Light and Power, Telecommunications has included all funds, organizations, agencies, boards, commissions and authorities. The Utility has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the Utility are such that exclusion would cause the Utility's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board have set forth criteria to be considered in determining financial authority. These criteria include appointing a voting majority of an organization's governing body and 1) the ability of the Utility to impose its will on that organization or 2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the Utility. The financial statements are the Enterprise Fund of Independence Light and Power, Telecommunications which is a component unit of the City of Independence.

Independence Telecommunications Utility is legally separate from the Electric Utility, but is financially accountable to the Electric Utility, or whose relationship with the Electric Utility is such that exclusion would cause the Electric Utility's financial statements to be misleading or incomplete. The Telecommunications Utility is governed by the Electric Utility's five-member Board appointed by the City Council and the Telecommunications Utility's Operating budget is subject to the approval of the City Council and the Electric Utility.

B. Basis of Presentation:

The Statement of Net Assets and the Statement of Revenues, Expenses, and Changes in Net Assets report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of the interfund activity has been removed from these statements.

The statement of Net Assets displays the Utility's assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

When both restricted and unrestricted resources are available for use, generally it is the Utility's policy to use unrestricted resources first.

C. Measurement Focus and Basis of Accounting:

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accompanying basic financial statements have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles. Revenues are recognized when earned and expenses are recorded when the liability is incurred. The accounting records are maintained in accordance with the uniform system of accounts prescribed by the Federal Energy Regulatory Commission (FERC).

In reporting its financial activity, the Utility applies all applicable GASB pronouncements for proprietary funds as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the Utility's Enterprise Funds is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Use of Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principals requires management to make estimates and

assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

E. Assets, Liabilities, and Net Assets:

The following accounting policies are followed in preparing the financial statements:

Cash and Cash Equivalents:

The Utility considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. At December 31, 2007 and 2006, cash consisted of checking accounts, savings accounts, and certificates of deposit.

Cash and cash equivalents for cash flows statements purposes are as follows:

	<u>2007</u>	<u>2006</u>
Cash	\$ 796,952	799,820
Board designated funds	<u>3,666,245</u>	<u>3,083,845</u>
Total Cash	4,463,197	3,883,665
Less: Certificates of deposit – term longer than three months	<u>(2,200,000)</u>	<u>(1,600,000)</u>
Cash and Cash equivalents	<u>\$ 2,263,197</u>	<u>2,283,665</u>

Accounts Receivable and Unbilled Revenue:

Accounts receivable are shown at the amount expected to be collected after determining the allowance for doubtful accounts based on an aging of all the individual customer balances. Unbilled revenue is for the service consumed between periodic scheduled billing dates and is estimated and recognized as revenue in the period in which the service is provided.

Inventories:

The inventories are valued using average cost.

Board Designated Funds:

Board Designated Funds consist primarily of funds designated by the Board of Trustees for the improvement, replacement and expansion of capital assets, future investment in transmission, and future health insurance payments for retired employees. The Board retains control over these funds and may, at its discretion, subsequently use them for other purposes.

Capital Assets:

Property and equipment were recorded in 1954 at their appraised value with all subsequent additions recorded at cost. Normal maintenance and repairs are expenses, and major renewals and betterments are capitalized. If items of property are sold, retired, or otherwise disposed of, they are removed from the asset and accumulated depreciation accounts, and any gain or losses thereon

are reflected in the Statements of Revenues and Expenses. Depreciation is computed using the straight-line method.

Investments:

At December 31, 2007 and 2006, investments are stated at the lower of aggregate cost or market.

Revenue:

Billings to customers are based on meter readings at stated rates, and are recorded as revenue in the corresponding meter-reading period.

Income Taxes:

Independence Light and Power, Telecommunications is a subdivision of the State of Iowa and exempt from federal and state income taxes.

F. Intangible Assets:

Intangible assets consist of start-up costs recorded at \$543,541 less amortization. At December 31, 2007 and 2006 these start-up costs were fully amortized.

(2) Cash and Investments

Independence Light and Power, Telecommunications' deposits in banks at December 31, 2007 and 2006 were covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The Utility is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Trustees; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The carrying value and the approximate market value of the Utility's investments at December 31, 2007 and 2006, are as follows:

	<u>Carrying Amount</u>	<u>Market Value</u>
Investment in Industrial Park Site December 31, 2006 and 2007	\$ 12,922	\$ 12,922

During 1988, Independence Light and Power, Telecommunications purchased 38.99 acres of land in Independence, Iowa. The utility sold 1.538 acres in 1988, 6.805 acres in 1991, 3.318 acres in 1994, 7.513 acres in 1998, and 15.017 acres in 2006 resulting in a gain on sale of investment of \$1,876, \$3,754, \$1,789, \$2,302, and \$66,075, respectively. At December 31, 2007, the remaining 4.799 acres were held for resale.

(3) Accounts Receivable

As of December 31, this account consisted of the following:

	<u>2007</u>	<u>2006</u>
Accounts Receivable	\$ 758,362	696,147
Less: Allowance for doubtful accounts	<u>(47,699)</u>	<u>(39,019)</u>
Balance	<u>\$ 710,663</u>	<u>657,128</u>

(4) Unbilled Revenues Receivable

Unbilled revenues receivable consist of electric meter usage that has not been read or billed by the Utility. At December 31, 2007 and 2006, these amounts were \$223,799 and \$184,298, respectively.

(5) Inventories

At December 31, inventories consisted of the following:

	<u>2007</u>	<u>2006</u>
Fuel oil	\$ 140,470	124,340
Lube oil	41	440
Distribution	164,094	151,082
Generation	108,197	108,056
Cable and internet supplies	<u>111,570</u>	<u>115,385</u>
	<u>\$ 524,372</u>	<u>499,303</u>

(6) Reserved Funds

The reserved funds are amounts the Board has restricted for specific purposes.

Capital Improvement Fund – At the October 20, 1994 meeting, the Board approved the combining of the Improvement Fund and the Future Construction Fund and called it the Capital Improvement Funds. This fund is to be used for new construction projects and improvements. Monthly transfers to this fund are to be \$15,000. At the February 20, 1997 board meeting, the policy was changed to have \$20,000 transferred to this fund each month. At the February 24, 2005 board meeting, the policy was changed to have \$40,000 transferred to this fund each month. At the February 23, 2006 board meeting, the policy changed to have \$20,000 transferred to this fund each month. During 2007, a net amount of \$90,000 was transferred into the fund.

Retirement and Severance Fund – The Board of Trustees has reserved this to pay for future health insurance coverage for retired employees. It also helps fund the accrued vacation and sick leave for current employees. This fund is to equal the combined retirement and severance liabilities. \$7,700 is transferred into this fund each month. During 2007, \$92,400 was transferred into the fund.

Self Insurance Fund – The Board of Trustees has reserved the amounts in this fund to replace the distribution system that might be destroyed by a natural disaster. This reduces the amount of insurance premium that would be incurred if an outside insurer were paid for this coverage. Prior to October

1994, this fund was funded with all interest income received. At the October 20, 1994 board meeting, the policy was changed to have \$2,500 transferred to this fund each month. At the July 25, 1996 board meeting, the policy was changed retroactive to June 1996 to have \$15,000 transferred to this fund each month. In December 1996, the Board of Trustees approved an additional transfer of \$25,000 to the fund. At the February 20, 1997 board meeting, the policy was changed to have \$20,000 transferred to this fund each month. At the February 24, 2005 board meeting, the board approved a transfer of \$181,596 to this fund from the Retirement and Severance Fund, and approved capping this fund at \$1,000,000. During 2007 and 2006, no amounts were transferred into the fund.

At the April 19, 2007 Board of Director's meeting, it was approved to create a new restricted fund - Investment in Transmission. The funds will be used for future transmission capital investing. A transfer of \$400,000 from Unappropriated funds to the Investment in Transmission fund.

(7) Capital Assets

Capital Assets Not Being Depreciated:	<u>2007</u>	<u>2006</u>
Land	\$ 243,881	242,531
Construction in Progress	-	35,991

Net Capital Assets	<u>\$ 12,449,334</u>	<u>13,355,226</u>

(8) Long-Term Note Receivable – City of Independence

During 1999, Independence Light and Power, Telecommunications loaned \$94,626 to the City of Independence for the purpose of purchasing air packs for use by the Independence Fire Department. This loan is to carry no interest as long as it is current, and is to be paid back at a rate of \$13,800 of the principal annually. Should the loan become in arrears, the loan will carry interest commensurate with that rate charged by local banks on outstanding municipal warrants. The note was paid in full as of December 31, 2007.

(9) Accrued Vacation and Sick Pay

At December 31, 2007 and 2006, Independence Light and Power, Telecommunications had accrued vacation payable of \$69,862 and \$63,025, respectively. An employee may carry forward only five days of vacation from one vacation year to the next. An employee earns their vacation days on their anniversary date.

All full-time employees accrue sick leave at a rate of 2 days per month up to a maximum of two-hundred-eighty (280) days. Upon retirement, medical disability, or death, an employee will be paid up to fifty percent of 240 days of his or her accumulated sick leave. At December 31, 2007 and 2006, the accumulated sick leave was \$ 587,440 and \$525,764, respectively.

(10) Accrued Retirement Insurance

During 1986, the Board of Trustees voted to recognize the probable liability of retirement health insurance coverage by appropriating funds for this purpose, based on the life expectancy of each retiree. The amount of probable liability was determined using life expectancy tables and a variable health care inflation assumption and those amounts were placed in a long-term investment. The Utility will recognize the liability incurred and accordingly restrict the equivalent amount of cash. The criteria for determining eligibility includes years of service and employee age. The benefit is available to the spouse for up to three months after the death of the retiree. At December 31, 2007 and 2006, Independence Light and Power, Telecommunications had accrued retirement insurance of \$529,104 and \$592,352.

At a July 2004 Board of Trustees meeting, the Utility adopted a resolution stating that future retirees would not be provided retirement health insurance coverage. Current retirees and spouse will continue to be covered under the plan.

At December 31, 2007 and 2006, Independence Light and Power, Telecommunications covered 11 retired employees.

(11) Pension and Retirement Benefits

Independence Light and Power, Telecommunications contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, IA 50306-9117.

From January 1 through June 30, plan members were required to contribute 3.70% of their annual covered salary and Independence Light and Power, Telecommunications was required to contribute 5.75% of annual covered payroll. From July 1 through December 31, those rates are 3.90% and 6.05%, respectively. Contribution requirements are established by State statute. The contributions paid to IPERS by Independence Light and Power, Telecommunications for the years ended December 31, 2007 and 2006 were

\$63,381 and \$62,753, respectively, equal to the required contributions for each year.

(12) Long-Term Debt

On December 29, 2006, the Utility signed a loan agreement with BankIowa. The loan is payable from the revenue from the operation of the Utility. The loan was for \$436,409. Principal and interest payments are payable for 59 months in the amount of \$8,700 beginning on February 1, 2007, with a final installment of all remaining principal and interest due at maturity on December 1, 2011. At December 31, 2007 the balance of the loan was \$358,021.

The Utility issued an Electric Revenue Improvement and Refunding Note dated August 1, 2005. The balance at December 31, 2007 and 2006 was \$5,106,263 and \$5,402,222, respectively. Monthly payments are \$44,370 through August 1, 2020. On August 1 in each of the years 2012 and 2019, the rate will be adjusted to two thirds (67%) of the 7-year fixed advance rate plus 2%. The fixed advance rate is published by the Federal Home Loan Bank, Des Moines, Iowa. Currently, the note bears interest at 4.50% per annum.

The electric revenue note is a revenue note issued under the provisions of Chapter 384 of the Code of Iowa and, as such, the principal and interest are payable from the revenue from operations of the Utility. The details of the Utility's indebtedness are as follows:

Year Ending December, 31	Interest Rate	Principal	Interest	Total
2008	4.50	\$ 307,652	224,783	532,435
2009	4.50	321,914	210,521	532,435
2010	4.50	336,650	195,785	532,435
2011	4.50	352,116	180,320	532,436
2012	4.50	368,231	164,205	532,436
2013 – 2020	4.50	3,419,700	635,073	4,054,773
Total		\$ 5,106,263	1,610,687	6,716,950

The Utility reserves the right to prepay principal on this note in whole or in part at any time prior to and in any order of maturity on terms of par and accrued interest.

(13) Related Party Transactions

Independence Light and Power, Telecommunications provides electrical service to the City of Independence. During the years ended December 31, 2007 and 2006, the charges for this electrical service were \$301,716 and \$270,927. In addition, the City paid \$10,000 for utility billings and collections.

During 2006 and 2007, Independence Light & Power, Telecommunications donated \$156,000 to the City of Independence.

The Utility has agreed to pay the City of Independence \$150,000 per year for a five year period for the purpose of economic development. The annual payments are due January 31st. The first payment was paid January 31, 2006.

(14) Lease Agreements

Independence Light and Power, Telecommunications has a Joint Use Contract with Qwest Corporation. Both parties own poles used by the other party. A lease of \$16.79 per pole is paid to the owner. The net amount, (Joint Use Poles owned by the Independence Light and Power, Telecommunications less the number of Joint Use Poles owned by Qwest Corporation) was 413 poles. During the years ended December 31, 2007 and 2006, Independence Light and Power, Telecommunications received \$8,798 and \$6,934, respectively.

The Utility also has a Joint Use Contract with Mediacom. Both parties own poles used by the other party. A lease of \$16.79 per pole is paid to the owner. The net amount, (Joint Use Poles owned by the Independence Light and Power, Telecommunications less the number of Joint Use Poles owned by Mediacom) was 1,597 poles. During the years ended December 31, 2007 and 2006, Independence Light and Power, Telecommunications received \$26,814.

(15) Commitments

On March 2, 2006, the Utility signed a letter of intent to purchase power from Wisconsin Public Power, Inc. (WPPI). The letter of intent states the contract period will be from May 1, 2006 through December 31, 2037 with an average wholesale cost of power projected to be \$58.28/MWh for 2006. An official contract for service was approved and signed at the April 20, 2006 meeting of the board of directors.

In order to offset rising transmission costs, the Board of Directors, through and in conjunction with its membership in the Midwest Municipal Transmission Group (MMTG), on March 23, 2006, signed a letter of intent with Iowa Public Power Agency (IPPA) to conduct negotiations with Mid American Energy Company toward an agreement for investment rights in the construction or acquisition and ownership of transmission upgrades and additions to Mid American's transmission system. Independence Light and Power, Telecommunications' allotted investment of ownership in the transmission project will be \$310,000. On February 28, 2007, the Utility through and in conjunction with its membership in MMTG, also agreed to participate in the Brookings-Twin Cities Development Project Agreement with the Central Minnesota Municipal Power Agency for investment and development of transmission. Independence Light and Power, Telecommunications' allotted investment share of ownership in the transmission project will be \$248,648. The percentage of equity and debt financing for both agreements are yet to be determined under the Federal Energy and Regulatory Commission (FERC).

(16) Risk Management

Independence Light and Power, Telecommunications is exposed to various risks of loss related to torts, theft, damages, and natural disaster. These risks are covered by the purchase of commercial insurance. The Utility assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims

resulting from these risks have not exceeded commercial insurance coverage for the past three years.

Notes to Required Supplementary Information – Budgetary Reporting

December 31, 2007

The budgetary comparison is presented as Required Supplementary Information in accordance with Government Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for their financial statements.

In accordance with the Code of Iowa, the Board of Trustees annually adopts a budget on the cash basis following required public notice and hearing. The annual budget may be amended during the year utilizing similar statutorily prescribed procedures. Encumbrances are not recognized on the cash basis budget and appropriations lapse at year end. During the year there was one amendment to the budget. The amendment increased budgeted expenditures by \$194,411. Disbursements did not exceed amounts budgeted at December 31, 2007.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance
and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with Government Auditing
Standards

To the Board of Trustees
Independence Light and Power, Telecommunications
Independence, Iowa 50644

We have audited the accompanying financial statements of the business type activities, each major fund and the aggregate remaining fund information of the Independence Light and Power, Telecommunications, Independence, Iowa, as of and for the years ended December 31, 2007 and 2006, which collectively comprise the Utility's basic financial statements listed in the table of contents, and have issued our reports thereon dated March 14, 2008. We conducted our audits in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audits, we considered the Independence Light and Power, Telecommunications' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of Independence Light and Power, Telecommunications' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Independence Light and Power, Telecommunications' internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies and another deficiency we consider to be a material weakness.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Independence Light and Power, Telecommunications' ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood a misstatement of Independence Light and Power, Telecommunications' financial statements that is more than inconsequential will not be prevented or detected by Independence Light and Power, Telecommunications' internal control. We consider the deficiencies in internal control described in Part II of the accompanying Schedule of Findings and Questioned Costs to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood a material misstatement of the financial statements will not be prevented or detected by Independence Light and Power, Telecommunications' internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we believe item II-A-07 is material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Independence Light and Power, Telecommunications' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part III of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the Utility's operations for the year ended December 31, 2007 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the Utility. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Independence Light and Power, Telecommunications' responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the Utility's responses, we did not audit Independence Light and Power, Telecommunications' responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Independence Light and Power, Telecommunications and other parties to whom Independence Light and Power, Telecommunications may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Independence Light and Power, Telecommunications during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

March 14, 2008

Independence Light and Power, Telecommunications

Schedule of Findings and Questioned Costs

Year ended December 31, 2007

Part I: Summary of the Independent Auditor's Results:

- (a) Unqualified opinions were issued on the financial statements.
- (b) Significant deficiencies in internal control over financial reporting were disclosed by the audit of the financial statements, including a material weakness.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.

Independence Light and Power, Telecommunications

Schedule of Findings and Questioned Costs

Year ended December 31, 2007

Part II: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

SIGNIFICANT DEFICIENCIES:

II-A-07 Segregation of Duties – One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible.

Recommendation – We realize segregation of duties is difficult with a limited number of office employees. However, the Utility should review its control procedures to obtain the maximum internal control possible under the circumstances.

Response – We will consider this.

Conclusion – Response acknowledged. The Utility should segregate duties to the extent possible with existing personnel and utilize administrative personnel to provide additional control through review of financial transactions and reports.

Independence Light and Power, Telecommunications

Schedule of Findings and Questioned Costs

Year ended December 31, 2007

Part III: Other Findings Related to Statutory Reporting:

- III-A-07 Official Depositories – A resolution naming official depositories has been approved by the Utility Board.
- III-B-07 Certified Budget – Disbursements during the year ended December 31, 2007 did not exceed the amounts budgeted in the business type activities functions.
- III-C-07 Questionable Disbursements – We noted no questionable disbursements that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- III-D-07 Travel Expense – No disbursements of Utility money for travel expenses of spouses of Utility officials or employees were noted.
- III-E-07 Business Transactions – There were no business transactions between the Utility and Utility officials or employees.
- III-F-07 Bond Coverage – Surety bond coverage of Utility officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure the coverage is adequate for current operations.
- III-G-07 Board of Trustees Minutes – No transactions were found that we believe should have been approved in the Board minutes but were not.
- III-H-07 Revenue Notes – We noted no instances of noncompliance with the Electric Revenue Note provisions.
- III-I-07 Deposits and Investments – We noted no instances of noncompliance with the deposit and investment provisions of chapter 12B and 12C of the Code of Iowa and the Utility's investment policy.
- III-J-07 Telecommunication Services – We noted no instances of noncompliance with Chapter 388.10 of the code of Iowa.
